Cross Section and Experimental Data Analysis Using EViews

I. Gusti Ngurah Agung

Cross Section and Experimental Data Analysis Using EViews I. Gusti Ngurah Agung

A practical guide to selecting and applying the most appropriate model for analysis of cross section data using EViews.

"This book is a reflection of the vast experience and knowledge of the author. It is a useful reference for students and practitioners dealing with cross sectional data analysis ... The strength of the book lies in its wealth of material and well structured guidelines" ... Prof. Yohanes Eko Riyanto, "Nanyang Technological University, Singapore"

"This is superb and brilliant. Prof. Agung has skilfully transformed his best experiences into new knowledge ... creating a new way of understanding data analysis." Dr. I Putu Gede Ary Suta, "The Ary Suta Center, Jakarta"

Basic theoretical concepts of statistics as well as sampling methods are often misinterpreted by students and less experienced researchers. This book addresses this issue by providing a hands-on practical guide to conducting data analysis using EViews combined with a variety of illustrative models (and their extensions). Models having numerically dependent variables based on a cross-section data set (such as univariate, multivariate and nonlinear models as well as non-parametric regressions) are concentrated on. It is shown that a wide variety of hypotheses can easily be tested using EViews.

"Cross Section and Experimental Data Analysis Using EViews" Provides step-by-step directions on how to apply EViews to cross section data analysis - from multivariate analysis and nonlinear models to non-parametric regression Presents a method to test for all possible hypotheses based on each model Proposes a new method for data analysis based on a multifactorial design model Demonstrates that statistical summaries in the form of tabulations are invaluable inputs for strategic decision making Contains 200 examples with special notes and comments based on the author's own empirical findings as well as over 400 illustrative outputs of regressions from EViews Techniques are illustrated through practical examples from real situations Comes with supplementary material, including work-files containing selected equation and system specifications that have been applied in the book

This user-friendly introduction to EViews is ideal for Advanced undergraduate and graduate students taking finance, econometrics, population, or public policy courses, as well as applied policy researchers.

From reader reviews:

Lea Severino:

Inside other case, little individuals like to read book Cross Section and Experimental Data Analysis Using EViews. You can choose the best book if you'd prefer reading a book. As long as we know about how is important a book Cross Section and Experimental Data Analysis Using EViews. You can add expertise and of course you can around the world with a book. Absolutely right, mainly because from book you can realize everything! From your country until foreign or abroad you may be known. About simple matter until wonderful thing you are able to know that. In this era, we can easily open a book or perhaps searching by internet product. It is called e-book. You should use it when you feel weary to go to the library. Let's learn.

Linda Banks:

Book is to be different for each and every grade. Book for children till adult are different content. As we know that book is very important for people. The book Cross Section and Experimental Data Analysis Using EViews was making you to know about other information and of course you can take more information. It is extremely advantages for you. The guide Cross Section and Experimental Data Analysis Using EViews is not only giving you much more new information but also to get your friend when you truly feel bored. You can spend your spend time to read your guide. Try to make relationship with all the book Cross Section and Experimental Data Analysis Using EViews. You never truly feel lose out for everything in the event you read some books.

Betty McClanahan:

This book untitled Cross Section and Experimental Data Analysis Using EViews to be one of several books in which best seller in this year, honestly, that is because when you read this guide you can get a lot of benefit on it. You will easily to buy this kind of book in the book retailer or you can order it by means of online. The publisher of the book sells the e-book too. It makes you quickly to read this book, because you can read this book in your Mobile phone. So there is no reason for your requirements to past this book from your list.

Anita Rhodes:

In this age globalization it is important to someone to acquire information. The information will make professionals understand the condition of the world. The condition of the world makes the information much easier to share. You can find a lot of recommendations to get information example: internet, paper, book, and soon. You can see that now, a lot of publisher this print many kinds of book. Often the book that recommended to you is Cross Section and Experimental Data Analysis Using EViews this e-book consist a lot of the information on the condition of this world now. This specific book was represented so why is the world has grown up. The language styles that writer use for explain it is easy to understand. Often the writer made some analysis when he makes this book. That is why this book suitable all of you.
