**Hypno Herbal Medicine A Manual of Hypnotic Motivation Designed to Compound the Traditional Therapeutic Values Reported to the Herbs Described** Dr. Ormond McGill Dean of American Hypnotists, Tom Silver Hypnotherapist Founder of Hypnosis Foundation

HYPNO-HERBAL MEDICINE has a heritage from both sides of the world. Hypnotherapy is Western, and has developed a popularity that has swept into the Orient. Chinese Herbal Medicine is Eastern, and has developed a popularity that has swept into the Occident. Hypnomedicine covers the world, and is nationally broadcast on Taiwan television. Herbal medicine has been used for centuries by many people in the Orient, who have found it helpful and beneficial in many ways. Medicinal herbs, combined in their taking with the subconscious motivation that hypnosis provides (as Hypnomedicine), have their usefulness ever more compounded.

At the very beginning of this book, let it be understood that the herbs described are not prescribed – they are merely told about. All are eatable, and are harmless in the small quantity consumed in the hypnomedication process. Their therapeutic value is traditional. However, in no way is Hypnomedicine to be regarded as superseding your physician's treatment. Consider all that is given you in this book as an adjunct to the medical wisdom that your M.D. prescribes. This book is for Professional Adults only.

Chapter One:  
YOUR SUBCONSCIOUS PHASE OF MIND

Chapter Two:  
HOW TO PRESENT SUGGESTIONS THAT INFLUENCE

Chapter Three:  
CONTROLLING THE MIND

Chapter Four:  
THE FUNCTIONS OF THE MIND
