Sociological Cultural Studies: Reflexivity and Positivity in the Human Sciences Gregor McLennan

In a systematic and comprehensive analysis of the relationship between sociology and cultural studies, Gregor McLennan lucidly guides us from central philosophical questions in the social sciences to new interpretations of such urgent contemporary questions as Eurocentrism, multiculturalism, and reflexivity. The author offers a range of closely linked arguments concerning the viability of the 'idea of sociology', the development of cultural studies, and the balance between positivity and reflexivity in setting the right kind of 'mood music' for progressive intellectual work.
