*Storytelling and QAR Strategies* offers a clear, detailed explanation of this research-based, reading comprehension framework, providing teachers, school librarians, and storytellers with the tools they need to incorporate the deep learning of QAR into storytelling events and classroom work. The authors furnish traditional tales, fables, and myths related to the 12 pillars of character education, underscoring the traits of caring, citizenship, fairness, honesty, respect, and responsibility. Each story is supported by QAR questions and includes activities for pre- and post-reading, as well as complete documentation and source information.

Bundling together character education, storytelling, and QAR, the book puts all of the necessary materials at the fingertips of teachers and librarians. It is also a valuable tool for storytellers, with guidance on developing the QAR strategies around a multitude of stories. Research proves that teaching QAR strategies results in deepened student comprehension as well as higher test scores. Thanks to this book, implementing the technique has never been easier.
