You may be surprised at how much common ground modern cutting-edge scientific research has with the age old practices taught by the great spiritual teachers. Richard Dotts shares his own personal journey, and tells you why there is really nothing separate or different about all the different self-help manifestation techniques taught throughout the ages.

This is NOT a book about how to control the minds of others, but rather, how to control your OWN mind to more effectively get and create reality in a way that pleases you.
