Operations Management for Competitive Advantage (The McGraw-Hill/Irwin Series Operations and Decision Sciences) Richard B. Chase, Nicholas J. Aquilano

This text gives a thorough introduction to the concepts, processes and methods of managing and controlling operations in manufacturing or service settings. It provides comprehensive coverage, from high-tech manufacturing to high touch services, with a balanced treatment. The book also thoroughly integrates and discusses issues such as globalization, supply chain strategy, e-business and ERP. The concepts are illustrated by using real world examples, articles, problems and cases. Technology is integral to the success of this course so the text also provides students and instructors with a range of technology learning and teaching tools.
