Memories of Drop City John Curl

The first hippie commune of the 1960s and the Summer of Love. A memoir of the beginnings of the hippie and communal counterculture movement. The author 's adventures starting in New York City's East Village as a drop out, an anti-Vietnam war draft dodger, through the Southwest (Colorado and New Mexico), and in San Francisco during the years leading up to and beyond the 1967 Summer of Love. Drop City was both an artist colony and a hippie commune. During the Summer of Love it became a stopping off destination between the two coasts for the countercultural community. Drop City was a key spark to the communal and back-to-the-land movement of that decade, a hothouse of social experimentation, as well as a pioneer in creative housing and solar energy. Beyond its notorious reputation as a center for psychedelics, it became a place where many Droppers moved beyond drugs. Drop City was a gathering place of radical visionaries who came together to Live the Revolution. These are my memories of Drop City.
