The hidden language of dreams Mrs. Sigrun Gunnarsdottir

Dreams are unique in the perspective that there you have the subconscious, or the soul, communicating with the conscious or the person, and the subconscious does not care for the definitions of symbolism, which is a world unto itself. It simply collects the information which suits the dreamer and the knowledge that his/her soul stores. This is why this book will not focus so much on definitions, but is rather an attempt to discover whether the dreams are interpreting the daily life of the person, or his spiritual journey. Each dream is a story, and since the story is always told through symbolism, the story must be read symbolically in its widest interpretation, with regard to circumstance and context.
