## **The Student Doctor Network What Every Doctor Should Know... But Was Never Taught in Medical School** Tom Harbin **About The Book**

You're a doctor and you know a lot about medicine. But do you know a lot about the real world? Doctors learn a lot in medical school, but not enough. Only rarely will a course teach practical, useful, or pragmatic information to help with the myriad decisions that arise in day-to-day life. Dr. Harbin wrote this book to fill the gap: to help doctors deal with the business aspects of medicine, help doctors in training learn how to evaluate opportunities for the future, and assist practicing doctors in dealing with the questions arising day-to-day and when planning for the future.
