On May 22, 2018, **every person on Earth sneezes**. Simultaneously.

Hours later, an alien spacecraft appears over New York City and broadcasts a dire message of impending doom. The future of the human race will depend on the whims of a solitary extraterrestrial who appears in the form of Walter Cronkite. **Yes, that's right, Walter Cronkite, the deceased news anchor!**

Ex-FBI troubleshooter Jake Corby has faked his death and dropped out of sight, living like a hermit in a small town. But the president is convinced Corby's still alive. He wants Jake, with his unique problem-solving skills, added to the team that will try to defeat the strange but powerful alien. Jake needs to overcome his introvert tendencies if he's going to help save the planet.

The alien has some nasty surprises for the residents of Earth, and the race is on to figure out his true motives and the meaning of the sneeze event--before it's too late.
