- Surpasses the Physician's Desk Reference © by including clinical case studies and independent expert analysis
- Complete index of drug names
- Most complete cross referencing of drug-drug interactions available

The book is divided into three separate sections:

- General Anesthetics - A general introduction to their adverse effects, followed by monographs on individual inhalational and intravenous anesthetics.
- Local Anesthetics - A general introduction to their adverse effects including the adverse effects of different routes of administration, followed by monographs on individual local anesthetics.
- Neuromuscular Blocking Agents and Muscle Relaxants - A general introduction to their adverse effects, followed by monographs on individual agents.

Drug names have usually been designated by their recommended or proposed International Non-proprietary Names (rINN or pINN); when those are not available, clinical names have been used. In some cases, brand names have been used.
