Prometheus and Atlas

Jason Reza Jorjani

Prometheus and Atlas Jason Reza Jorjani

In *Prometheus & Atlas*, Dr. Jorjani endeavors to deconstruct the nihilistic materialism and rootless rationalism of the modern West by showing how it was grounded on a dishonest suppression of the spectral and why it has a parasitic relationship with Abrahamic religious fundamentalism. Rejecting the marginalization of ESP and psychokinesis as “paranormal,” *Prometheus & Atlas* makes the case that psi is only “super Natural” insofar as our reductive modern scientific models have occluded Supernature for practical purposes. At the same time, Jorjani calls for a conscious recognition of the superhumanly empowering archetypes of Prometheus and Atlas, which he argues have unconsciously driven the daring scientific exploration and discovery of all those cultures that adopted and adapted the cosmopolitan promise of the Hellenic heritage. Embracing the Promethean and Atlantic spirit, and a reach for a fiery fusion of the horizons of the Eastern and Western worlds, would mean the dawn of a new age and an integral society wherein the modern barriers between Science, Religion, Politics, and Art have been dynamited.
