The Social Reality of Europe After the Crisis: Trends, Challenges and Responses Patrick Diamond, Roger Liddle, Daniel Sage

The economic crisis of recent years continues to have a profound effect on the lives of European citizens. Economically, politically and socially, it has led to fundamental change in many people's lives. In addition to creating new concerns, the crisis has simultaneously exacerbated existing ones, raising profound challenges to the sustainability and success of the European model. This book seeks to examine this new 'social reality' of post-crisis Europe. The authors conclude by exploring what both the EU and national governments can do to restore Europe's strength, sustainability, cohesion and competitiveness in a climate of rising populism.
