Mastering Refractive IOLs: The Art and Science David F. Chang MD

The availability of new presbyopia-correcting and toric IOLs along with the CMS ruling allowing Medicare patients to pay a premium to upgrade to them, has dramatically and permanently altered clinical practice for every cataract and refractive surgeon.

Facing the challenge of educating patients about these options, as well as managing and meeting their expectations, today's clinicians more than ever need to share knowledge, experience, and advice with their ophthalmic colleagues.

Dr. David F. Chang and his associate editors, Drs. Steven J. Dell, Warren E. Hill, Richard L. Lindstrom, and Kevin L. Waltz, have assembled a "Who's Who" team of more than 200 refractive IOL experts to create *Mastering Refractive IOLs: The Art and Science*, a must-have book and reference for all cataract and refractive surgeons—whether you are already implanting a high volume of refractive IOLs or just starting to offer them.

The IOL technical specifications, the clinical data, and the necessary clinical and surgical skills comprise the scientific foundation for achieving a "premium" refractive outcome. To consistently achieve patient satisfaction, however, requires mastering the art of patient and IOL selection, communicating and counseling effectively, and providing a "premium" patient experience.

This is a nontraditional book in which multiple experts are separately asked to discuss controversial subjects in a reader-friendly format. There is balanced coverage of all of the available refractive IOLs, as well as those that may become available in the near future. A major emphasis is placed on avoiding and managing complications or potentially dissatisfied patients.

Mastering Refractive IOLs: The Art and Science has more than 200 chapters that are organized into 14 major sections, over 750 images, over 100 tables, and 11 sidebars that cover every aspect of refractive IOL clinical practice.

Major sections include:

- Why Offer Premium IOLs
- Transitioning to Presbyopia-Correcting IOLs
- Transitioning to Presbyopia-Correcting IOLs: Quick Start Guides
- Presbyopia-Correcting IOLs Today
- Presbyopia-Correcting IOLs in the fFuture
- Refractive IOLs—Quality of Vision
- Patient Selection & Education
- Presbyopia-Correcting IOL Selection
- Preoperative Ocular Assessment
- Managing Astigmatism
- Premium Cataract Surgery
- Refractive Lens Exchange
- Enhancements

- Complications—Avoidance and Management

Mastering Refractive IOLs: The Art and Science is the most comprehensive educational resource addressing the most demanding and rapidly evolving area in cataract and refractive surgery today and the first book to cover both the clinical and nonclinical aspects of offering refractive IOL services.

From reader reviews:

Carmela Randle:

Information is provisions for those to get better life, information nowadays can get by anyone on everywhere. The information can be a understanding or any news even a huge concern. What people must be consider if those information which is from the former life are challenging be find than now is taking seriously which one works to believe or which one the particular resource are convinced. If you find the unstable resource then you buy it as your main information you will see huge disadvantage for you. All those possibilities will not happen in you if you take Mastering Refractive IOLs: The Art and Science as your daily resource information.

Peter Chatman:

Spent a free time and energy to be fun activity to try and do! A lot of people spent their down time with their family, or their very own friends. Usually they doing activity like watching television, going to beach, or picnic inside park. They actually doing same every week. Do you feel it? Will you something different to fill your own free time/ holiday? Can be reading a book can be option to fill your free time/ holiday. The first thing that you will ask may be what kinds of publication that you should read. If you want to attempt look for book, may be the guide untitled Mastering Refractive IOLs: The Art and Science can be excellent book to read. May be it might be best activity to you.

Brian Register:

Reading a book to be new life style in this yr; every people loves to read a book. When you study a book you can get a great deal of benefit. When you read textbooks, you can improve your knowledge, simply because book has a lot of information onto it. The information that you will get depend on what forms of book that you have read. If you wish to get information about your analysis, you can read education books, but if you act like you want to entertain yourself you can read a fiction books, this kind of us novel, comics, along with soon. The Mastering Refractive IOLs: The Art and Science will give you a new experience in examining a book.

Felix Smith:

As a university student exactly feel bored for you to reading. If their teacher questioned them to go to the library or to make summary for some e-book, they are complained. Just very little students that has reading's spirit or real their leisure activity. They just do what the professor want, like asked to the library. They go to at this time there but nothing reading really. Any students feel that studying is not important, boring as well as can't see colorful photos on there. Yeah, it is to be complicated. Book is very important for yourself. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore , this Mastering Refractive IOLs: The Art and Science can make you truly feel more interested to read.
