## They're here...Invasion of the Body Snatchers: A Tribute

Invasion of the Body Snatchers is one of the most ingenious and influential works of science fiction ever to "take over" the public imagination. Based on the 1955 novel *The Body Snatchers* by Jack Finney (author of the classic *Time and Again*), this classic tale of alienation, conformity, and political paranoia has inspired three motion pictures--and terrified three generations of fans. Now this fascinating companion volume--edited by Kevin McCarthy, the star of the original film, and Ed Gorman--explores the enduring power and popularity of *The Body Snatchers* phenomenon. Filled with photographs, interviews, personal commentaries, and behind-the-scenes anecdotes--it is, at once, a tribute to director Don Siegel's 1956 film noir classic of Red Scare paranoia, a reassessment of the 1978 and 1997 remakes, and an homage to the brilliant fiction of author Jack Finney.
