You are not a body with a mind walking around in a physical universe. You are pure conscious awareness, and the physical universe is “walking around” within you. That includes what you think of as your body and your mind, as well as every other body you perceive.

In this groundbreaking book by Rhonda Hicks, you'll learn what happens when two people put out conflicting intentions. You'll understand how and why everything in your life comes about, and how the subjective universe only has one manifester. You.

Readers of Rhonda Byrne's *The Secret* will find this book of great importance, as it touches upon subjects only briefly hinted at in the previous Law of Attraction books.

What happens when two people go after the same desire? What about when you want one thing, but your boyfriend wants another? What about children who attract negative events? Are they really responsible for it?

In *The Law of Attraction*, readers begin exploring the deep questions and secret knowledge behind the nature of this vibrational universe, questions that were briefly hinted in the original bestselling volume.
