Nearly  $\frac{3}{4}$  of the American people believe the death of the 35nd President of the United States was the result of a conspiracy. And it's provable. This second book in the new JFK Assassination Unraveled series does just that. Unlike other books that drown you in a sea of conflicting information, these volumes are comprised of small groups of facts that logically prove the findings of Warren Commission wrong. You the reader can grasp easily each scenario and either accept it or reject it. But if you accept any one of them – gotcha! – it proves a conspiracy. Based on careful research and powerful “insider information,” this series takes a fresh look at the death of President John F. Kennedy more than half a century after the fact.
